

## Parent/Guardian Sedation Instructions

Patient Name: \_\_\_\_\_

DOB: \_\_\_/\_\_\_/\_\_\_

- Please notify our office of any changes in your child's physical condition that could cause their procedure to be canceled or rescheduled, such as a cold, fever, persistent cough, or the flu. \_\_\_\_\_initials
- Please notify our office of any changes in your address and/or phone number. We will call to confirm your child's procedure within 2 weeks of the scheduled date. \*If we are unable to confirm with a parent or guardian, the procedure will be canceled and will not be rescheduled with our office. \_\_\_\_\_initials
- The week before the procedure, we will call to go over arrival times and eating & drinking restrictions. We must speak with you to deliver this information. We will not leave a detailed message. \_\_\_\_\_initials
- Your child must not eat or drink anything after midnight before the scheduled procedure. This is to ensure the safety of your child during sedation, as consuming food or drink can lead to serious complications, including death. \_\_\_\_\_initials
- Your child should wear loose, comfortable clothing to the appointment, as monitors such as a blood pressure cuff will be attached to their arm or leg. It is also recommended your child uses the restroom before the appointment. \_\_\_\_\_initials
- Please notify us if your child has taken any over-the-counter medications within 24 hours of the sedation appointment; this is very important for their safety. \_\_\_\_\_initials
- Please arrive promptly for your child's appointment. Late arrival may necessitate rescheduling of the procedure. Allow for traffic in planning your departure from home so that you can arrive on time. If you are early, the staff will welcome the opportunity to help you and your child relax before the procedure. \_\_\_\_\_initials
- A parent or guardian must accompany the child to and from our office and must remain in the facility during the entire procedure. \*It is recommended one adult tend to the child in the car on the way home and another adult drive. \_\_\_\_\_initials
- Your child should follow the post-sedation instructions, which include avoiding activities that require full coordination for the remainder of the day, following a specific diet, monitoring for fever, pain, bleeding, and other symptoms, and contacting the dentist if any concerns of complications arise. \_\_\_\_\_initials
- We strive to provide exceptional care for your greatest asset-your child. If you have any further questions, do contact us at (806) 796-2408. \_\_\_\_\_initials
